

Job Posting for Internal Medicine Physician & Family Practice Physician

Section 1: Information about our organization

Our practice provides medical and supportive services to all individuals regardless of social or economic circumstances. Practice strives for Patient Centered Medical Home (PCMH) recognition with service integration to meet the needs of the whole person and family.

- ***Mission Statement***

Our goal is to provide comprehensive primary healthcare, selected specialties and referral services to the population of the Chattahoochee Valley area regardless of circumstances. We focus on being patient centered and providing whole person, team-based care.

Through this mission the Center will: minimize barriers of access; increase patient awareness and treatment compliance; provide prevention, education, patient support and research programs; educate the public on health care issues; ensure operational effectiveness and financial viability; develop integrated services networks with other provider organizations; facilitate community participation in the health care planning process and; contribute directly to the economic growth and stability of the local area.

- ***Brief History***

Valley Healthcare System formerly known as Community Health Center of South Columbus opened its doors August 1994. This name change is reflective of the growth in our size and the services that we provide to the community. We began as a small service within the Baker Village community of the South Columbus area. Today, we provide medical, dental, out-reach services, behavioral health and pharmacy services to residents from the Chattahoochee Valley region and beyond.

Section 2: Information about the role

VHcS is currently seeking a **full-time Internal Medicine Physician** and a **Family Practice Physician** to become a part of our team of dedicated healthcare professionals. Qualified candidates will be licensed in Georgia and be Board certified. Prior FQHC and EHR experience preferred but not required.

Benefits Offered:

1. Health, Dental, Vision, Disability, and Life Insurance
2. Eligible to apply for Loan Repayment through HRSA
3. Coverage under FTCA Malpractice
4. Continuing Medical Education Assistance

Our practice provides medical and supportive services to all individuals regardless of social or economic circumstances. Practice strives for Patient Centered Medical Home (PCMH) recognition with service integration to meet the needs of the whole person and family.
